AIRCRAFT MOVEMENT STATISTICS

INTRODUCTION

The 2021 Golden Municipal Airport (CYGE) movements statistics have been compiled by East Kootenay Fuel Sales Ltd. of Golden. The aircraft statistics data has been gathered from voice activated radio recordings, the airport visitor logbook, and visual accounts.

The objective of this report is to document the usage of CYGE services as well as guest demands for services. The report will identify current flight activity and demonstrate trends of growth over time. The data will be significant when determining future development of CYGE.

AIRPORT AMBASSADOR REPORT

The Golden Municipal Airport (CYGE) experienced the busiest year on record with a total of 6194 aircraft movements in 2021.

- During the winter months, local helicopter movements supporting the backcountry lodge, cat skiing, and heliskiing industry remained consistent with previous years.
- The Royal Canadian Air Force carried out 2 weeks of mountain flight training north of Golden in June. These aircraft made regular flights to Golden to resupply.
- The runway recorded 2190 movements during 2021. This is the highest number of runway movements recorded to date. Local commercial operators using the airport for skydive and tour operations contributed significantly to this increase.
- Kicking Horse Aviation opened summer of 2021, offering scenic tours and custom charter flights based out of Golden.
- During the month of July, the airport supported up to 6 helicopters fighting the forest fires in the Golden area.
- The initial Airport Strategic and Tactical plans were completed. Improvements included taxiway signage, removal of trees, and decommissioning of taxiway C.
